INTRODUCTION

SENTRION CORPORATION (“SENTRION”) WAS ESTABLISHED IN KOREA.

Sentrion Corporation is an exporter and manufactures representative for Electronic Components products, are one of the leading exporter and manufacturers in the field of electronic parts industry in Korea.

Sentrion is manufacture and offers complete Sensor part of temperature, humidity, UV sensing solutions and related components to our customers across the globe.

Many years experience in marketing and manufacturing has allowed us to offer these solutions that exactly meet our customer's requirements.

Sentrion supplies NTC thermistors, humidity sensors and Thermal Cutoffs related components into the key market areas of Mobile phone, HVAC and Domestic Applications. We believe that the need for exacting temperature and humidity sensing will continue to grow especially in the areas of mobile phone, HVAC and domestic applications.

Sentrion is positioning itself to take advantage of these market dynamics and will offer world leading solutions to their customers, backed up by high quality products and best-in-class customer service. Constant marketing and production developing means Sentrion is continually improving its performance across a wide range of products.

COMPANY PROFILE

Company Name : SENTRION CORPORATION (www.sentrion.co.kr)

Established : July 2003

Major Founder : Chang-Min, Lee

Capital : US\$ 3,500,000

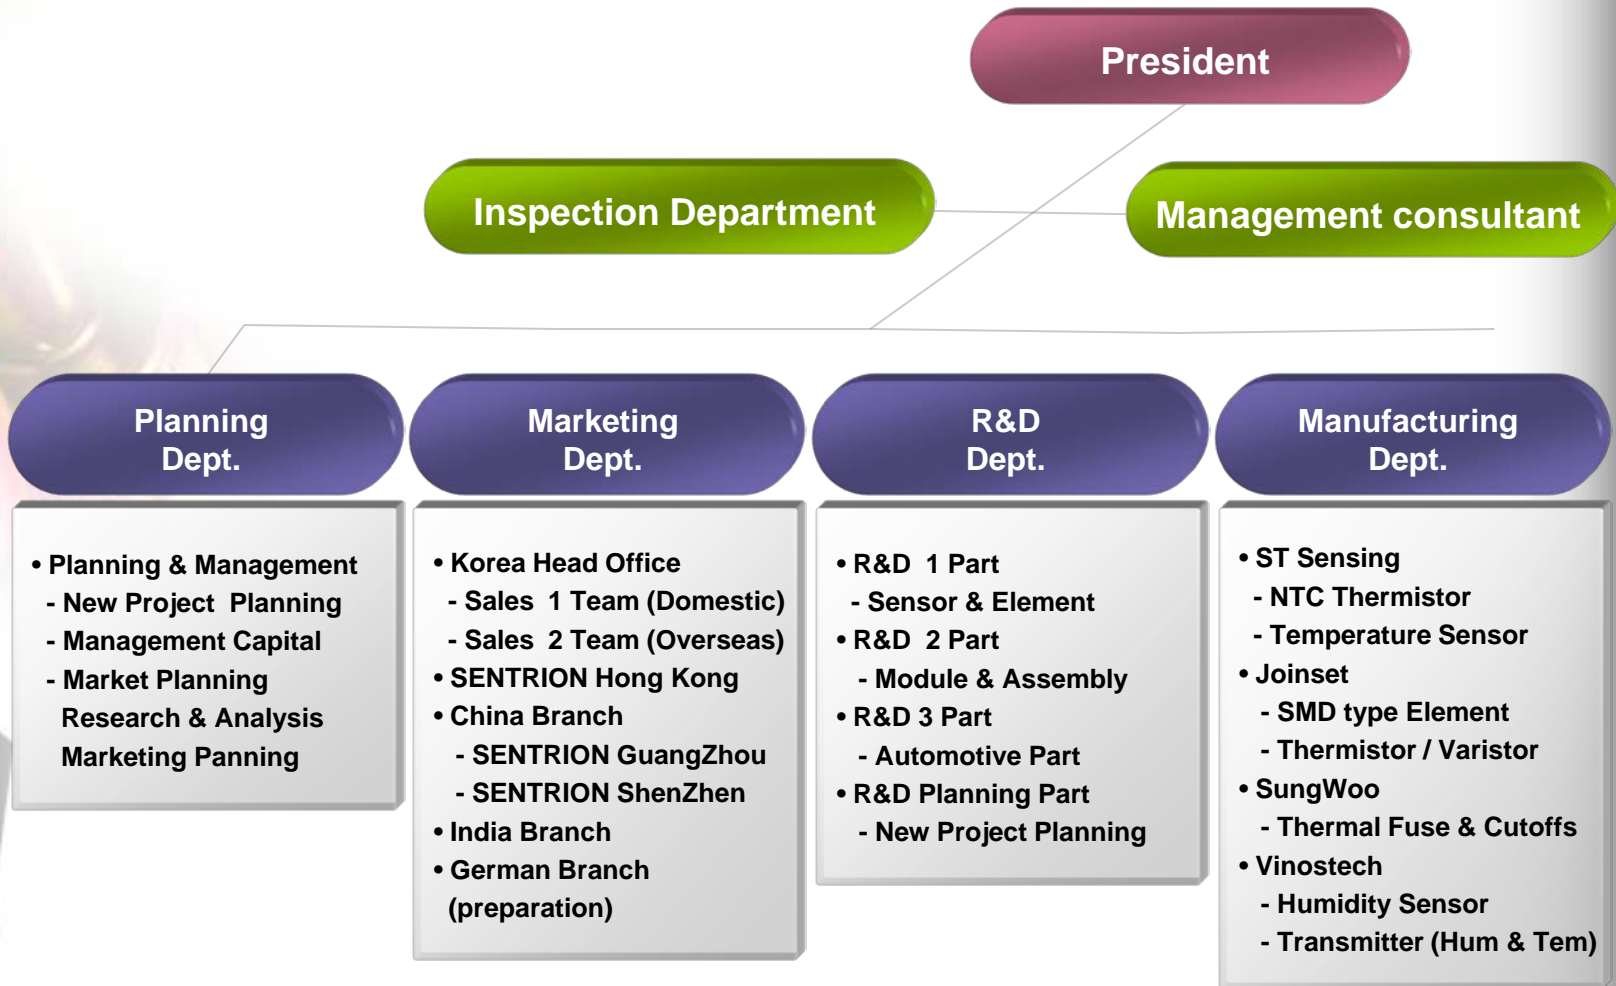

Business field : Electronic Components
(Thermistor, Humidity sensor, Thermal Cutoffs, etc)

Location : HEADQUATER (South Korea)
#606, Hankook Electronic Hyubdong B/D, 371-51,
Gasam-Dong, Geumcheon-Gu, Seoul, Korea, 158-803
Tel : +82-2-858-0027 / Fax : +82-2-858-0028

ORGANIZATION OF SENTRION

ORGANIZATION (MARKETING)

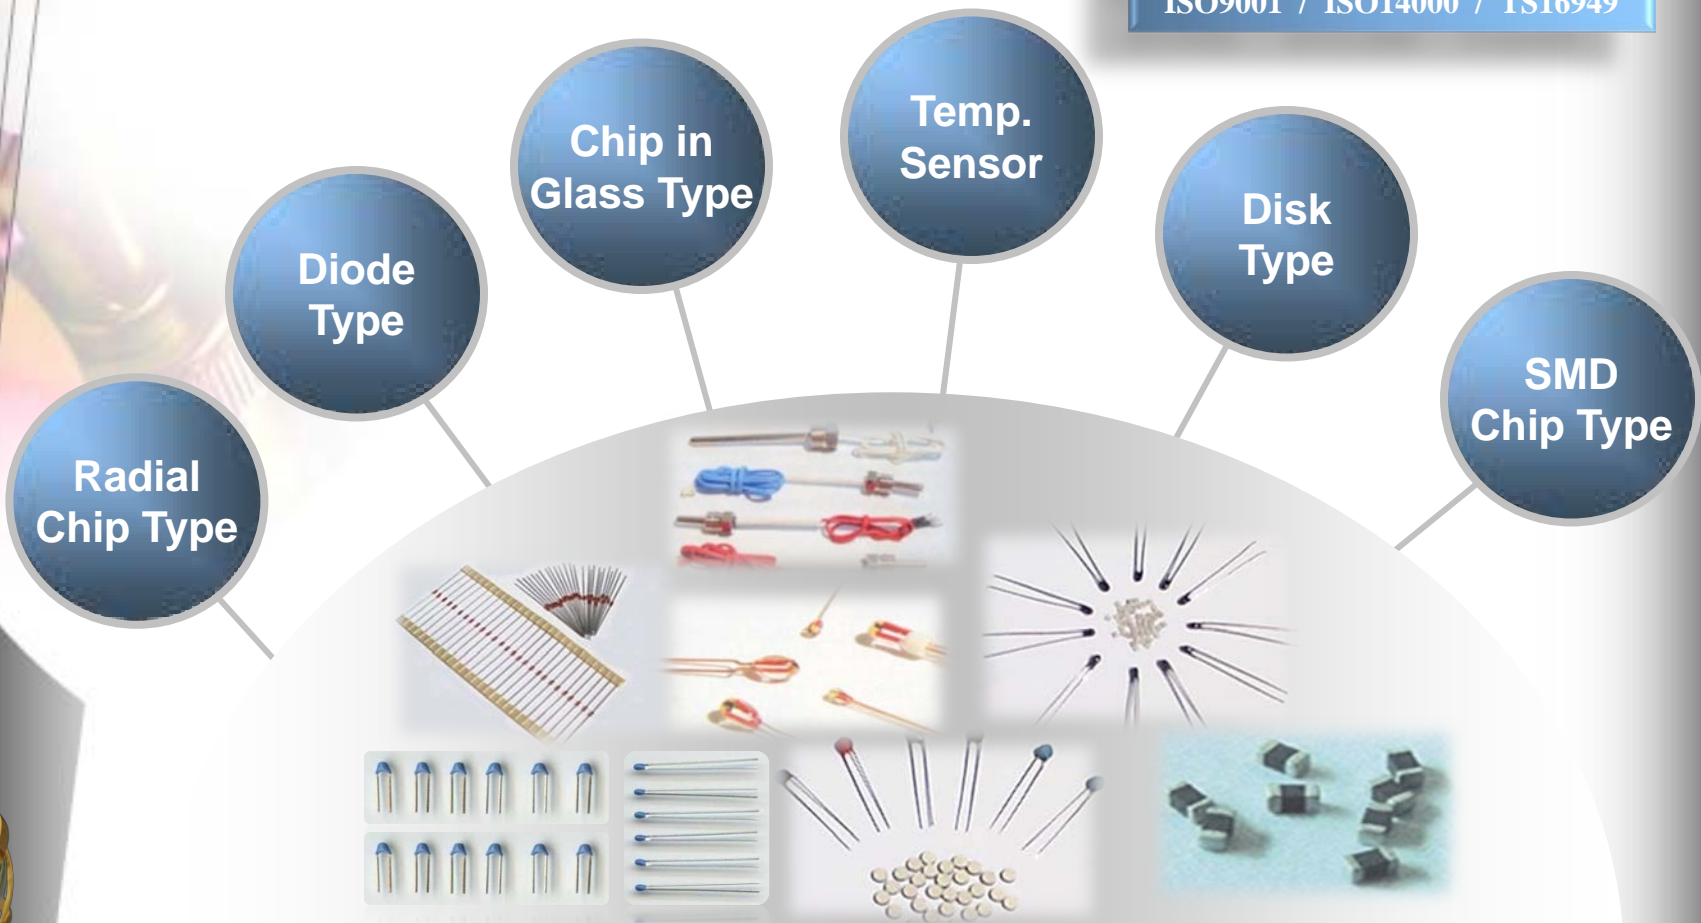

ANNUAL SALES

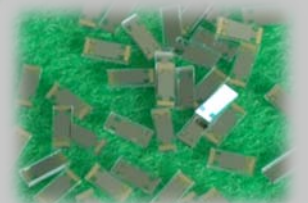

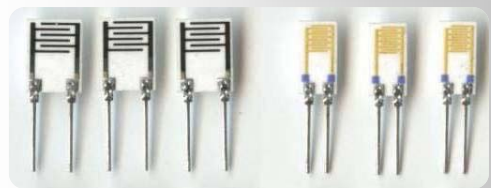

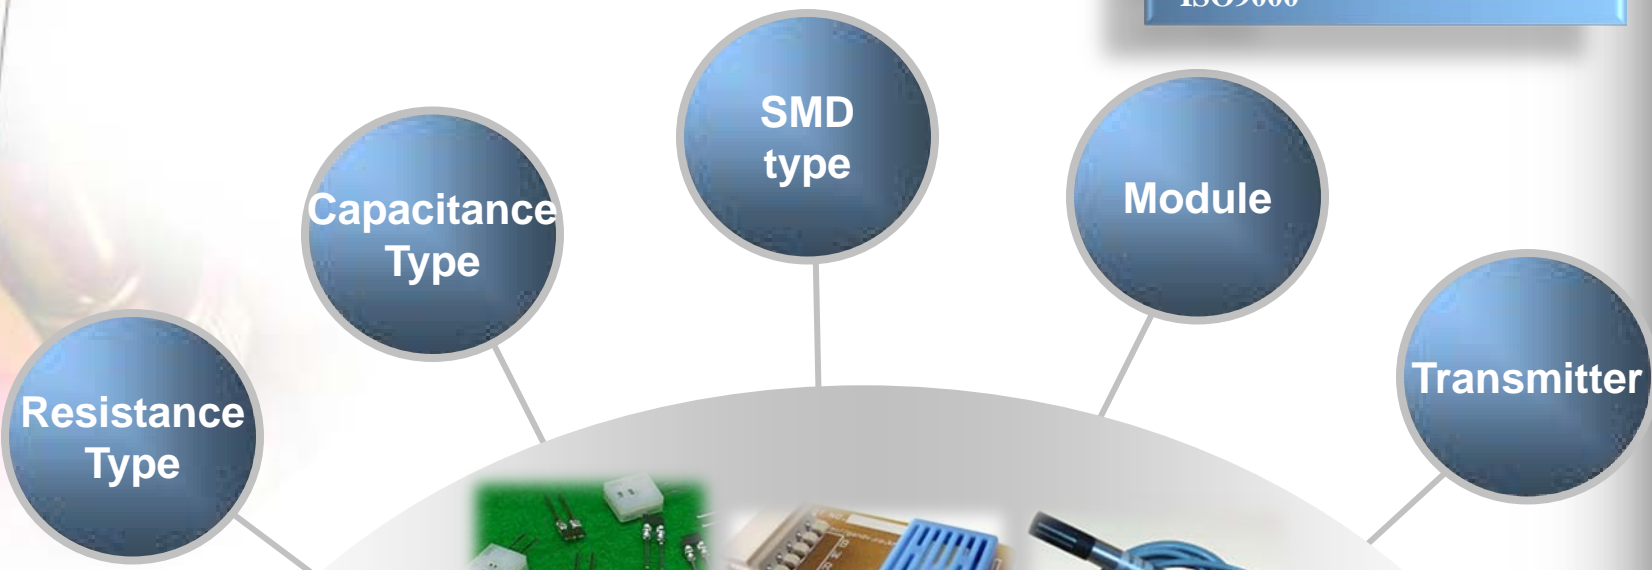

PRODUCT LINE (NTC Thermistor)

Quality System
ISO9001 / ISO14000 / TS16949

PRODUCT LINE (Humidity Sensor)

Quality System
ISO9000

PRODUCT LINE (Thermal Cutoffs)

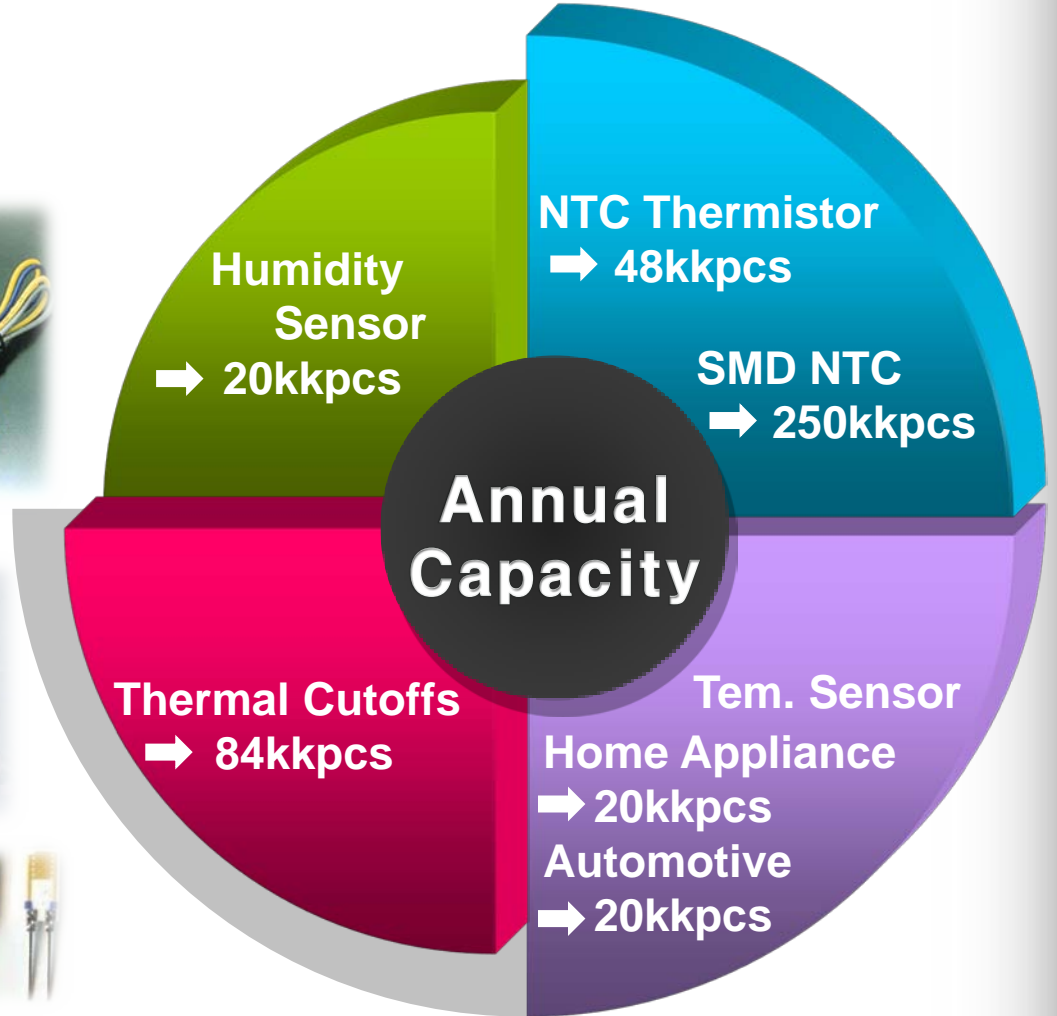

Approved Safety Standards
UL, c-UL, TUV, MITI, PSE, K-mark, VDE, CCC

Thermal
Cutoffs

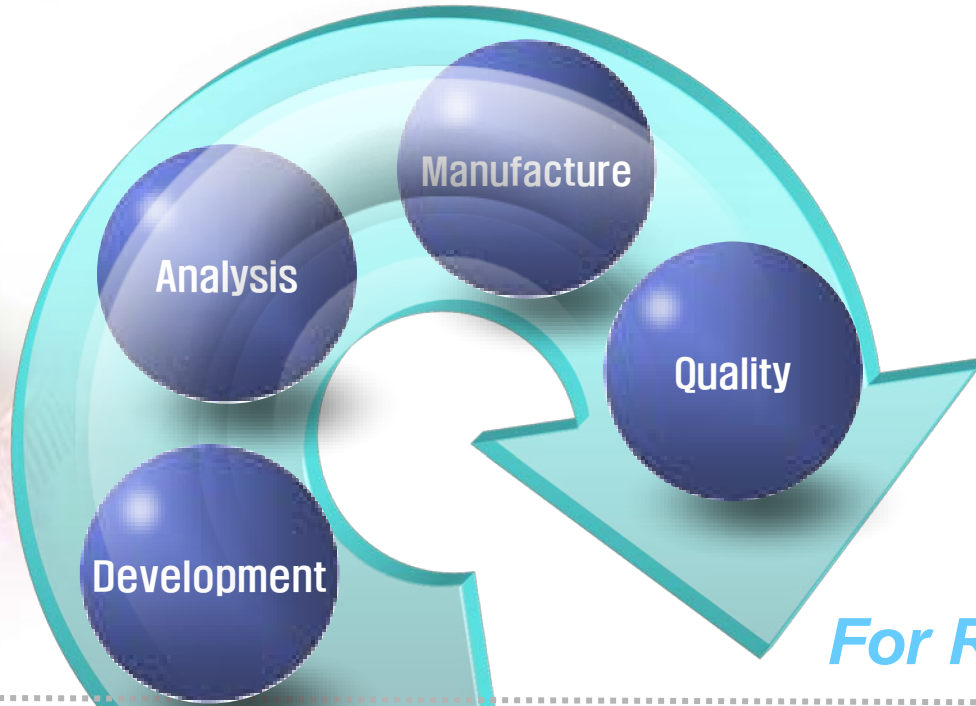

TCO
Assembly

PRODUCTION CAPACITY

EQUIPMENT

For Reliability Test

*X-Ray Real Time
Inspection M/C*

*Thermal
Analyzer*

*Thermal Shock
Chamber*

*Temp. & Hum.
Test Chamber*

*Aging Test
Chamber*

*High Temp
Aging Chamber*

*Electric
Load Tester*

*Tensient
Overload*

APPLICATION

Home Appliance

Refrigerators, Airconditioner,
Dehumidifier, Humidifier
Washing Mashing, Etc.

Automotive

Incar Sensor, Water Temp. Sensor
Temp Gauge sensor, A.Q.S,
Evaporator Temp. Sensor, Etc.

Small Appliance

Coffee Maker, Hair Dryer,
Coffee Maker, Hair Dryer
Weather Station, Thermo Clock
Hygro-Thermo meter, Etc.

Application

Industry

Gas Boiler, Duct Sensor etc.
